Very Good Experience from an Honest Business, earned a lot of respect from me.

Brett and his crew paved my 3500 sqft driveway and left it looking beautiful. But the asphalt didn't cure like it was supposed to (it was determined to be something with the mix from the asphalt supplier) and was soft weeks after they paved it. Brett came to inspect it multiple times and was very thorough about diagnosing the problem. Brett didn't hesitate to take full control of the situation and make the whole situation right for us with a solution.

It's sad that in today's world (especially in Austin) it's hard to find contractors that stand by their name and hold up their reputation. But we definitely found one of those rare companies in Contractors Asphalt. We have 2 other paving projects coming up and they are going to be out first call.

These guys are simply the best. Easy to work with, show up on time and do exactly what they say they will. Tony and his crew have been a pleasure to work with from start to finish!

These guys are great! We've hired other contractors in the past only to have their repair work repaired, so finding the guys at Contractors has made my job easier. I've had them bid on several of our property parking lots around Austin and they've been nothing but awesome. Professional, efficient, and friendly!

I didn't end up needing any work done due to an incredibly long story. However, I spoke with Brett several times and he was great. He was very understanding and went above and beyond to try to help me out. Even though I didn't end up using their services, I could tell by the way things were handled, how responsive they were, etc., the work would have gone well and I would not hesitate to use Contractors Asphalt for any future needs.

The crew did a great job on our asphalt driveway. They're hardworking, easy to deal with, and had fair pricing. I think the one thing that I really appreciated is their ability to communicate with me. In my previous experience, contractors have been hard to reach and flaky. This was not the case with Contractors Asphalt. They were easy to reach by phone, and email. They were nice and respectful of our property. We plan on having them come back to seal our asphalt driveway soon.

After doing a little online research I still wasn't sure what asphalt company to use, but since Contractors Asphalt had some good reviews I decided to call them first. I called a couple other places too just to cover my bases, but ultimately chose Contractors. Now that the project is complete I felt comfortable sharing that they are in fact a great choice if you are looking for good customer service and very professional quality of work.

We had absolutely no problems thanks to Contractors Asphalt's professionalism. Our parking area is rather large and busy, but they were able to organize and complete the asphalt repairs in the least disruptive way. Kudos

COULD NOT HAVE ASKED FOR A BETTER COMPANY TO SERVICE OUR NEEDS!

No need to look further, I mean it! Efficient service by Mandi, the staff replaced and hauled our car stops without a problem - They work so fast, the the rates, affordable and extremely reasonable.

Quality of materials - TOP GRADE. Thank you very much!

We recently bought a home in Austin and when the rain started we soon learned about the horrible drainage problem. We hired Contractors to help with the areas around our driveway and it was well worth it. Highly recommend

I always contract all my asphalt needs to contractors because I know it will always be done right and on time, the first time. Their quality is second to none, and they have staff who actually care about the work! I highly recommend using them for any asphalt needs whether it's seal coat, or a complete overlay. If you want your asphalt work done with integrity, these are your guys.

We have used Contractors on many paving and sealcoating jobs. We would never use anyone else. I have tried other companies but no one gives use the quality and service that Contractors does. Jason and Shawn are by far the best in the paving business.

I believe in rewarding good work. With that said, I recently hired Contractors Asphalt to repair our church parking lot and was very impressed with their professionalism. They came out and gave us an honest opinion and a fair quote in a timely manner, the crew was friendly and conscientious, and the lot looks great. We appreciate the work and the people, so we'll definitely call them for repairs or maintenance in the future and recommend them to others.

The parking lot for our condos was only done a few years ago, but had a large dip and cracks in several sections so we knew it was probably a bad installation. I called several pavers in Austin and the first to respond was Contractors Asphalt. The estimator came out the next day to walk the property with me and followed up with me a couple of days after that with their bid. They showed up and did an outstanding job. We're thrilled with the outcome. Job well done.

We had Contractors Asphalt demolish and replace our parking lot of approx 20000 sq ft. The crew did a great job. I think the "proof is the pour" and we're very happy with the finished project.

I think these guys are great! They're friendly and professional which made it really easy to feel they were trustworthy and the right company for the job. I love customers service oriented local businesses. I'll definitely be scheduling maintenance and any other asphalt or concrete repair work around Austin with these good people.

I worked with Adam and he was involved every step of the way from estimate, before project began, and checking the work after it was done. Lola in the office is friendly and very helpful. The guys who did the work are courteous, quick, and did a great job. Excellent.
